

# **Blue Parrot group at Forest School**

## **May 19<sup>th</sup> 2015**

**Come and  
share our  
adventure!**

# Today we noticed that...

The weather was strange today and we stopped to look at the dark clouds and sing a song to make them go away!

Archer noticed that somebody had cut back the stinging nettles from the path and said that this was ...

*So they don't sting you!*

*The rain is coming!*

*Purple flower*

The rain didn't hear us and we all got a little soggy. Archer said that the rain made a sound like, "Plit, plat!"

You had to be careful because there were lots of bluebells growing .

Callie had to blow really hard to get the seeds from the dandelion plant to blow away.

# 1,2,3 Where are you?

We played 1,2,3...Where are you? This game is like 'hide and seek'. We found some amazing hiding places.

## 1. Start counting

## 2. All run and hide

## 3: Keep still and quiet and try not to be found!

*There you are  
Rebecca!*

## 4: When you are caught you need to go and help find the others.

# Pirate adventure

Today the forest was overrun with pirates.

One of the captains gave their orders and everyone had to do as they were told. Captain Johnson said... in agreement.

**Ahrrrrrr!**

Captain Buzz shows off his sword skills.

This log became our ship.

*Walk the plank!*

The decks of our boat were a little slippery and some of the crew asked for help.

*Will you please hold my hand like Mummy does?*  
Harry

*Why is a pirate a pirate? Because they Ahrrrr!* Isaac

*Ahrrrrrr!*

**Watch out for sharks**

We found a large hole which Harry and Emily thought we could use to hide our treasure.

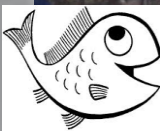

*Look at me. am a mermaid!*

The mermaids decided to guard the treasure, but...

...the captain came and took them away. The treasure was stolen by all the animals in the forest. Gloucester Pirates set sail for another adventure.

We all looked for treasure. Treasure comes in all different shapes and sizes.

*Found them over there. I will need to share them out!*

*They are trying to take me away. I am a mermaid!*

**The End**

# Clay faces

We combined clay with things that we found in the forest to make our own tree faces. Some of us made other things as well.

Simon decided to make a hedgehog. He could be heard saying, "I need some spikes." He picked some sticks off the floor saying, "I find it!" The sticks Simon had used looked just like hedgehog prickles.

We wanted to do some jumping but there was a great big log in the way. It needed moving and we had to find a way. We decided that we needed some...

## Teamwork!

With all of us helping we soon got to play.

Watch this!

# What new adventures will next week have in store for us?

A sword and a ductor. For going fast and slow!

What other uses will we find for sticks?

Who knows, but we are looking forward to it!

We wonder if our potions will work?

My potion makes bubbles!
