

# **Red Fox group at Forest School**

## **March 4<sup>th</sup> 2015**

**Come and  
share our  
adventure!**

# On our way...!

**Watch out for all those mounds!**

On the way to Forest School we saw lots of little brown mounds. Matthew explained to us that a mole had been very busy digging holes. Sienna was so interested in these that she told her mummy as soon as she got home. The mole was hiding but we will keep an eye out for him!

**Forest School, Forest School - let us in please!**

**Stay off the path!**

**We have lots of room in the forest to play,  
If we see the path we need to go the other way!**

# Exploring...

Maksim worked hard to build a bridge, so that all the creatures he had found in the forest could safely cross the "Deep River".

Matthew was fascinated by the sound of the wind in the trees and asked an adult...

*Is the wind talking to us?"  
I can't hear what it is saying.*

He has decided to keep listening in case he works out what is being said.

*Are there crocodiles, giraffes and octopus?*

Riley was keen to find out about all the creatures that he might find in the forest. He was very excited to find a log that looked like a snapping crocodile. He patted it and said, "Is he okay?"

We all enjoyed throwing the leaves in the air and watching them blow across the forest.

# We know that...

*It's a badger. They are black and white*  
**Callie**

Julia had hidden lots of soft woodland creatures around the forest and challenged us to find and then identify them. Most of them we knew, but some of them were tricky.

Rhys knew that a woodpecker made the holes in the trees. When we listened carefully we could hear it calling whilst we were playing.

*A woodpecker did it!*

The ground was extremely muddy, much to the our delight.

*I love playing in the mud!*

**Lucy**

*Look at my muddy wellies!*  
**Emily**

**STOP FIRE!**

**We need to keep away from the fire circle.**

# Building a den

We built some dens for the animals that live in woodland areas.

Rosie was asked what she liked best today. She made this tent for her frog out of twigs and leaves. It looked safe and cosy.

*Building Sallie the frog a house.*  
**Rosie**

*Look! I've found a big stick, but it won't fit in here!*

Keeley decided that this blackbird nest would be perfect for the toy mouse that she found. All the other children liked her idea and decided to put their own animal in the nest. This then turned into a photo shoot!

What new adventures  
will next week have in  
store for us?

Are we going to  
make a tent?  
Jayden

Who knows, but we are  
looking forward to it!

Look at  
me!
