

Green Crocodile group at Forest School

Weeks 3 2015

Come and
share our
adventure!

We're Going On A Bear Hunt

All of the bears had escaped from Julia's bag, so she asked us to help her find them. But *where* could they have got to?

Daniel and Pixie-Lou read the story for us all. Ellis found two teddy bears and said...

That's me and Amy.

It's the right size for my bear.
Reece

We set off to find the bears. We went through the grass and mud, across the river and even fought our way through a snowstorm until we reached the cave.

This is one of our favourite stories and it is even more exciting when you have a real forest to explore as you retell the story.

**WE'RE GOING ON
A BEAR HUNT**

Exploration...

A muddy puddle can look like lots of different things. Yaseen thought...

*We can sleep on the Giant's bed
Pixie-Lou*

Ella climbed onto the tallest log and told a friend..."You need to climb up. Put your foot on the grippy bit!"

It's a swamp!

*I'm going down,
down the rabbit
hole*

Andrew

We also found lots of different uses for sticks. Ellis thought that his looked like a letter y and Harper used hers like a pencil to make marks in the mud. She said...

We had lots of other good ideas today!

*You can follow
me now. It's
this way*

*I like to snap
the stick.*
Keiran

*It's a long
branch.*
Jayden

Lots of us used sticks to make letters from our names.

Szymon found a star and said,
"Twinkle, Twinkle."

Nature Crowns

If you look really closely on the forest floor you can find all sorts of treasures. Today we tried to make crowns covered in natural jewels but it wasn't easy. Zhe was quick to work out why and said ...

It's windy

He was right! The wind kept blowing our crowns all over the place. Szymon had to run very fast to catch his.

We found lots of new things to look at this week. Adam collected dandelion flowers and asked for help to count them. Kym had a great new name for dandelions. He called them "Dandy flowers."

Feather

*I found a daisy!
Charis*

What was in the forest today?

On the way to Forest School we saw a blue tractor mowing the grass.

The grass got too long and it needed cutting.

It was very cold today and we were worried about the birds. Zane, Ella, Daniel and Ellis crumbled up some of their snack biscuits to feed them with.

They might be cold.

How will the birds eat biscuits - they don't have teeth?

Food will make them feel warm.

Keerat noticed that...

Amy suggested...

Put your gloves on.

It's so cold today. You need to blow in your hands to warm them up.

The green woodpecker made the holes Charis.

We are going to have a campfire celebration next week. Our grown-ups are coming too!

All of us are looking forward to the campfire next week, but Zane reminded us about the rules of the 'Fire Circle' and also explained that...

You will get hurt. It will burn

We are all very excited!
