

Gloucester Nursery School Art Exhibition

All the children from G2 and G3 showed their creative flare as they worked together to produce masterpieces to decorate the Family Room. The children were actively encouraged to work out how the exhibition should look and think of appropriate artistic themes before putting on their aprons and starting their creations.

The finished results look amazing and the Family Room is now filled with colour and life. Spots, dots and sparkles as well as smiley faces, tree art and gemstone sculptures glitter on the walls. Some responses tell a story whilst other pieces are a little more modern and abstract.

Parents, staff and children were all very excited to see their responses on display and were very eager to write their positive comments in the Visitor's Boon on entry to the "exhibition".
